🛖 5 cabins 👤 10 guests ⚙️ 9 crew

Overview

BARACUDA VALLETTA is a 50m Perini Navi sailing superyacht, a typical masterpiece designed by Perini's in-house naval architects teamed with New Zealander Ron Holland.

With contemporary, minimal, clear lines based on the concepts of light, space and proportion. She accommodates up to 10 guests in 5 luxurious suites; one full beam master cabin with his and hers bathrooms, two double and two twin cabins with ensuite facilities. Her contemporary character is enhanced by the state-of-the-art AV System with Kahleidescape video on demand system, LED power lighting, all controlled by i-Pad and Android touch panels.

Her aluminum hull, tapering and deep semi-compensated rudder, extended waterline and lead ballasted winging keel, makes this superyacht the latest evolution of the successful 50m series. This ketch also makes a strong visual impact primarily by the color of the hull which is metallic grey with shades of gold and sails which come in flaming purple.

This sailing superyacht BARACUDA VALLETTA features many innovations including canting keel that changes from a 4m draft with her keel up to 9.7m draft with her keel down. The transom door can be cleverly opened almost entirely to transform into a large platform for both tender launching and swim access. The hydraulically operated swimming platform can be submerged 8 inches below the water's surface accessed by guests via a staircase on the aft deck.

Her excellent crew of 9 will offer you unforgettable chartering memories in East and West Med.

Live the chartering adventure onboard BARACUDA VALLETTA, the 50m Perini Navi breathtaking Sailing Superyacht!

Specifications
