Overview

Sanlorenzo 118 is a motor yacht with an overall length of 36.5 m. To complete its design, Sanlorenzo adopted many sophisticated technical innovations, such as, the lifting salon windows – an exclusively automotive concept – that allow a natural interior/exterior relation to better enjoy the seascape from a salon that becomes a terrace.

The yacht features an exterior design by Francesco Paszkowski. Up to 10 guests can be accommodated on board the superyacht, Octave, and she also has accommodation for 6 crew members, including the ship's captain. She has a GRP hull and a GRP superstructure. Her engines are 2 MT U engines, which give her a top speed of 26 kn. The yacht carries 19,900 litres of fuel on board.
