Overview

Inspired by American 1920 pleasure yachts and explicitly designed for leisurely cruises, Splendor is an excellent option for both families and friends who are looking for adventure in comfort and style.

A true masterpiece, Splendour was built in 2018 on the shores of Ara Beach in Suluwesi, the birthplace of the Indonesian boatbuilding tradition. With knowledge passed down from generations, skilled artisans carefully carved out a classic boat with contemporary lines. Beautiful in design, Splendor is one of a kind and the only ship of this shape and style built in Indonesia.

Splendour, offering accommodation to max. 6 adults and 3 children in 3 fully air-conditioned cabins, offers a welcoming space to return to after exploring the islands of Komodo and Flores. She's an excellent option for both families or small groups, Splendour provides a back lounge perfect for dinner under the stars or star gazing. Young and old can settle in the air-conditioned lounge area to watch their favorite movie, snacks included. For the more adventurous sea goers, dive off the swim deck for a refreshing morning snorkel or swim.

Generous in size, the upper deck will morph to what you want it to be. The perfect space for your morning yoga or meditation, jump off for a refreshing dip, or read a book under the sunshade, the best place to watch the sunset, a relaxed afterdinner drink, or view a shooting star.

Whether you want to socialize with friends or are looking for a quiet spot, Splendour has plenty of spaces for different occasions. The front lounge is a great spot to view dolphins and turtles or to relax and soak up the sun. The crew is happy to set up deck chairs or bean bags on the upper deck, making the most of the 'patch of grass.' Enjoy easy access to and from the ocean via our ergonomic swim deck located at the back of the boat.

Whether you are sipping a cocktail at the bar, enjoying a meal at the dining table, or relaxing on the back lounge area, Splendour offers guests and families the opportunity to unwind and connect. Just as the horizon meets the sea, the interior seamlessly meets the exterior, making the public areas an engaging interconnected space. The open space feels inviting, bright, and generous, the ideal area to relax and socialize.

The Master Cabin, located at the bow of the boat, was designed for maximum comfort and privacy. This well designed space with clean simple lines features an en-suite WC, bathroom, fine linens, reading lights, air-conditioning, ventilation hatches, 4 portholes and a personal B&O speaker system.

Splendour offers two identical Cocoon Cabins, each having direct access to a separate bathroom and

WC. Both cabins feature fine linens, air-conditioning, reading lights, two portholes, and a personal B&O speaker system.

The back lounge transforms into an open cabin for guests who prefer to sleep under the stars or if you invite two additional passengers. Upon your request, the back lounge converts into a twin outdoor cabin. Guests have the option of a fully enclosed area with waterproof blinds for comfort and privacy. Or, it will be kept open for guests who wish to sleep under a starry sky.
